APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion of the effluent water of the Boulder City, Nevada, sewage lagoons as heretofore granted under Permit 19289 is issued subject to the terms and conditions imposed in said Permit 19289 and with the understanding that no other rights on the source will be affected by the change proposed herein. The waters under this permit are classed as "Waste Waters" therefore, the permit granted herein carries with it no provision of guarantee for the continuous use of such waste. This permit is issued only for Industrial (Sand and Gravel Plant) purposes as the water to be appropriated hereunder is unfit for domestic uses. It should be recognized that while this water may be lawfully used under the above conditions, no right of continuance or regularity of flow can be acquired except by agreement or contract relation with the owner of the sewage treatment facility. Nothing in this permit shall be taken to infer the granting of any right of ingress or egress to the permittee.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second

Actual construction work shall begin on or before February 24, 1969

Proof of commencement of work shall be filed before March 24, 1969

Work must be prosecuted with reasonable diligence and be completed on or before February 24, 1970

Proof of completion of work shall be filed before March 24, 1970

Application of water to beneficial use shall be made on or before February 24, 1972

Proof of the application of water to beneficial use shall be filed on or before March 24, 1972

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed MAR 27 1969

Completion of work filed APR 6 1970

Proof of beneficial use filed APR 14 1972

Cultural map filed
